

AUSTRALIAN MATHS TRUST

Position title:	European Girls' Olympiad in Informatics (EGOI) Team Leader
Reports to:	Director of Training - Informatics
Direct reports	EGOI Deputy Team Leader
Terms	Casual Contract
Travel required	Domestic and international travel is required. This includes attendance at training schools, announcement ceremonies, committee meetings, and overseas events (approx. 6 weeks of travel annually). Additional travel may be required from time to time and will be negotiated on a need's basis.

The Australian Maths Trust (AMT) runs maths and informatics competitions, enrichment activities and Olympiad programs for students across Australia. Through the Olympiad Program, AMT helps talented students prepare to represent Australia overseas. The European Girls' Olympiad in Informatics (EGOI) is an international computer science competition for girls and non-binary students.

Position Purpose:

The EGOI Team Leader leads the Australian EGOI delegation, made up mainly of secondary school students travelling overseas. The role helps prepare, train, supervise and support the team, and provides academic and pastoral support to students taking part in the program.

The role needs someone who is mature, approachable and able to be a trusted leader, mentor and positive role model for students.

Position Duties

Under the direction of the Director of Training – Informatics, the EGOI Team Leader is responsible for leading and supporting the Australian EGOI delegation during preparation activities and overseas competition travel by:

- Assist in developing and delivering training programs to identify, train, and support students in AMT Informatics Olympiad activities, including the European Girls Olympiad in Informatics (EGOI) program.
- Lead the Australian EGOI delegation of students and accompanying staff during camps, team announcement activities and the overseas EGOI competition, making sure students are well supervised, supported and represented.
- Work closely with the Informatics Problems Committee, and Informatics program staff to develop and prepare high-quality academic content for exams and contests (incl. selection examinations).
- Advise the Selection Committee and Director of Training – Informatics in the determination of the EGOI and IOI teams.

- Help identify suitable staff to support Olympiad activities including tutors, lecturers, problem setters, mentors, live-in staff, and team leaders.
- Coordinate the EGOI team training, including delivering lecturing and mentoring activities
- Assist in providing pastoral care, health, and wellbeing support to students at camps and overseas competitions.
- Support students as they navigate competition pressures, travel, homesickness, stress, and cultural adjustment.
- Always model positive behaviour and professional standards
- Be a trusted leader, mentor and role model for young women and gender-diverse students.
- Work well with academic, administrative and support staff so the EGOI program is delivered safely and professionally.
- Provide an annual report on the Australian EGOI program (incl. the EGOI competition)
- Other tasks as reasonably directed by the Director of Training – Informatics, Director – Olympiads and Pathways or the CEO.

Selection Criteria:

Required Skills

- Demonstrated passion and enthusiasm for increasing opportunities in informatics for young women in Australia
- Experience in informatics training and/or teaching, preferably at the secondary/or tertiary levels or through involvement teaching or participation at Informatics Olympiad training schools
- Strong people skills, with the ability to build trust, communicate clearly and work respectfully with a wide range of young people, including students who learn, communicate or need support in different ways, including neurodivergent students.
- A strong understanding of duty of care, child safety, student supervision and wellbeing when working with students.
- Maturity, good judgement and professionalism when leading students at camps, during travel and at international competitions.
- Strong communication skills both written and verbal
- Ability to work well with academic, administrative and support staff, including taking direction, contributing to planning and dealing with issues professionally.
- Excellent organisational and management abilities
- Current Working with Vulnerable People Check or ability to obtain
- Current Senior First Aid certification or ability to obtain

Preferred

- A tertiary qualification in computer science, either completed or in progress
- Experience in the Australian Maths Trust's Olympiad programs
